

About us

In Sibiu, we produce annually around 30 million electronic control units. Some of the products developed, tested and produced here are intelligent braking systems, driver assistance systems or the acceleration force feedback pedal that limits speed when detecting an obstacle. Since 2004, Continental Automotive Systems Sibiu invested 279 million EUR and has over 3.500 employees.

Check the movie bellow for an insight in our activity:

Opportunities for Students

1. Summer Internship

Continental Automotive Systems Sibiu offers you the chance to work in a multinational automotive company during the summer. The internship will not only enhance your practical knowledge and skills, but will also offer you a glimpse of the working environment you are preparing for. A mentor will assist you during the time spent in the company in case you have questions and will make sure you have all the necessary support.

We offer annually more than 100 internship opportunities for students. The internship is paid and accommodation is provided for students outside Sibiu. At the link bellow you can find a movie realized by 2015's summer interns about their experience

## 2. Conti Course – Microcontrollers in Automotive

If you are passionate about microcontrollers and willing to learn more about this topic, take part at the course organized by Continental Automotive Systems Sibiu in your faculty in the 2<sup>nd</sup> semester.

Each participant will receive a diploma at the end of the course.  
You can find out more details from Prof. Adrian Duka.

## 3. Conti Technical Competition

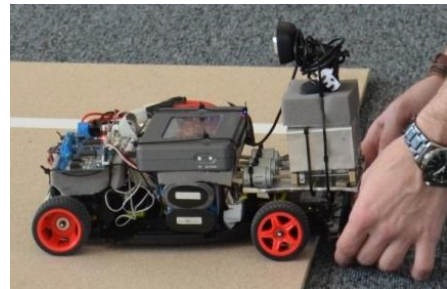

Would you like to experience the automotive domain? Take the first step by participating at our student competition!

Design and implement an autonomous vehicle!

The competition will take place in spring and it is dedicated to active students (including master students) from technical faculties (Computer Science, Electrical Engineering, Electronics, Mechatronics, Robotics, Electromechanics, etc.)

Rules and final details will be displayed within partner universities. Subscriptions will be made via email at: [technical-competition@continental-corporation.com](mailto:technical-competition@continental-corporation.com)

The best 3 teams will be awarded!

## 4. Diploma Project support

**Today's Students**   
**Tomorrow's Engineers** 

Are you interested in creating your diploma project in collaboration with Continental Sibiu and benefit from our support?

Step 1

Find a teacher willing to coordinate a diploma project realized in collaboration with us.

Step 2

Choose a topic from the ones suggested by us ([www.romania.careers-continental.com](http://www.romania.careers-continental.com)) or come up with your own idea.

Step 3

Contact us at [georgiana.bradescu@continental-corporation.com](mailto:georgiana.bradescu@continental-corporation.com) and share your passion with us.

Are you passionate about automotive industry, you speak English fluently and have programming, electronics or mechanics skills? Accept the challenge of building your career with us!
